神の歓たる者有り、政事家にして進化神の悪の最も愛なる者は、進化神を愛し、ランブランドの髪型。

鎖港の世には鎖港を喜び、交易の世には交易を喜び、麦飯を嗜み、牛炙し。

栗原 潤

The god of evolution favors national isolation in times of national isolation, and trade in times of active
world commerce. He relishes boiled barley and rice as well as beefsteak; he also sips and savors unrefined "niqoru" sake as well as wine. The god likes Yedo-style haircuts as well as Western-style short-cut hair. He likes the monochromatic water-colors of the Chinese Ming period painter Chen Shitian as well as the oil paintings of Rembrandt. Indeed, the god of evolution is the world’s greatest lover of variety. But . . . Politicians, especially, should remember what the god of evolution definitely hates, for if politicians do not know what the god hates, unimaginable disasters will rage.

(Chomin Nakae, a Japanese political theorist in the Meiji era)
